

# IP22 Wave Swing

Swings are a playground favourite, and the classic nest swing is one of the most multi-functional items available. It allows children to play in a group or child and family or carer to sit together or for a child to utilise the wide space to feel supported within the nest.

The benefit of this particular style is the nest is quite shallow, allowing children to move in and out more easily if movement is difficult for the child.

<b>Activities</b>	Swinging, movement, social, supportive play
